1 Foreword

QX/T 375-2017 was issued by China Meteorological Administration on 9 June 2017 and has been in force since 1 October 2017.

The QX/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 9 pages in English translation.

2 Scope Preview

This standard specifies the content, procedures and requirements for the supervision and inspection of meteorological information services. This standard applies to the supervision and inspection of meteorological information service activities by meteorological authorities.

QX/T 375-2017 falls under ICS 07.060, in the field of natural and applied sciences.

This catalogue holds 269 other QX/T standards in that field.
