1 Foreword

QX/T 407-2017 was issued by China Meteorological Administration on 29 December 2017 and has been in force since 1 April 2018.

The QX/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This standard stipulates the basic requirements, evaluation implementation, information disclosure and file management requirements for the professional ability evaluation of lightning protection devices. This standard is applicable to the evaluation of the professional ability of professional technicians in the detection of lightning protection devices.

QX/T 407-2017 falls under ICS 07.060, in the field of natural and applied sciences.
