1 Foreword

QX/T 456-2018 was issued by China Meteorological Administration on 30 November 2018 and has been in force since 1 March 2019.

The QX/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 17 pages in English translation.

2 Scope Preview

This standard specifies the date of the first frost and its early and late grades. This standard applies to the business of monitoring, forecasting, forecasting and impact assessment of the initial frost date and scientific research work.

QX/T 456-2018 falls under ICS 07.060, in the field of natural and applied sciences.

This catalogue holds 269 other QX/T standards in that field.
