1 Foreword

RB/T 039-2020 was issued by National Certification and Accreditation Administration on 26 August 2020 and has been in force since 1 December 2020.

The RB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 6 pages in English translation.

2 Scope Preview

This standard provides guidelines for the planning, implementation and recording of the confirmation of metrological traceability results for testing laboratory equipment: This standard applies to testing laboratories to confirm the measurement traceability results of instruments and equipment: Note: The equipment of this standard does not include standard materials, software, etc:

RB/T 039-2020 is filed under Chinese Standard Classification A 00, in the field of general, standardization and metrology.

This catalogue holds 54 other RB/T standards without an ICS number.

In this catalogue, RB/T standards carry edition years from 2013 to 2026.
