Foreword

This standard was drafted in accordance with the rules given in GB/T 1.1-2009.

This standard is proposed and managed by the National Certification and Accreditation Administration.

This standard was drafted. Shanghai Colors Certification Co., Ltd., Hunan Tea Industry Group Co., Ltd., Qinghai Kangpu Biotechnology Co., Ltd.

Co., Ltd., Yunnan Maoyuan Fruit and Vegetable Import and Export Co., Ltd.

Introduction

Most food processing enterprises in China have used various means to establish a product identification and traceability system, but at the front end of the processing chain, agricultural products the quality control and traceability of the production chain has yet to be improved. In this standard, reference is made to good agricultural practices, organic agricultural standards, and Oral supervision requirements, etc., to guide agricultural production enterprises to meet export regulatory requirements and avoid export trade risks.

The export chain agricultural products (hereinafter referred to as "agricultural products") supervision chain evaluation requirements are complementary to the food export management system that has been formed so far.

Charge, the scope of application includes from the cultivation of agricultural products to the direct export of agricultural products after harvesting or sales to export food processing plants, Including the process of food processing. This standard is used to verify the traceability of the quality responsibility of all parties from production to sales.

specification.

Export crop agricultural product chain of custody evaluation requirements
