1 Foreword

RB/T 170-2018 was issued by National Certification and Accreditation Administration on 23 March 2018 and has been in force since 1 October 2018.

2 Scope

This standard proposes a method for dividing the production areas of regional characteristic organic products in a specific administrative region. This standard applies to the division of regional production advantages of organic products. The organic products referred to in this standard are limited to planting, excluding wild Raw product collection, artificially planted edible fungi, livestock and poultry farming, aquaculture, etc.
