1 Foreword

SF/T 0082-2020 was issued by Ministry of Justice of the People's Republic of China on 23 September 2020 and took effect the same day.

The SF/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 16 pages in English translation.

2 Scope Preview

This standard specifies the overall architecture, deployment requirements, networking and functional application requirements, and infrastructure of the smart correction remote video inspection system Layer, data resource layer, service support layer, business application layer, operation and maintenance system, security assurance system, business application scenarios, data structure Requirements, unified coding of video points and video screen display requirements. This standard applies to the planning, design, construction and
