1 Foreword

SF/T 0142-2023 was issued by Ministry of Justice of the People's Republic of China on 7 October 2023 and has been in force since 1 December 2023.

It replaces the earlier edition SF/Z JD0202001-2015.

The SF/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the classification of visible fingerprint characteristics for the identification of visible fingerprints on documents, and stipulates identification acceptance procedures, inspection principles and methods, inspection steps, inspection records, feature comparison tables, technical points for inspection of incomplete and fuzzy fingerprints, and identification opinions. . This document is applicable to the identification of fingerprint identity visible on documents in trace identification in the field of forensic
