### What this standard covers

This standard specifies the determination by atomic absorption spectrometry lubricants and additives molybdenum content approach. This standard applies to molybdenum disulfide additive containing molybdenum disulphide additive mineral oils and synthetic oils.

### Document data

International classification (ICS): 75.100.

Chinese classification (CCS): E34.

Estimated length of the Chinese original: 6,664 words.

Supersedes the earlier edition SH/T 0605-1994.
