What this standard covers

This standard specifies the determination of UV nylon 66 salt content in the false-diaminocyclohexane spectrophotometry. This standard applies to the determination of the pseudo DCH nylon 66 salt content in the smallest measured concentration 0. 3mg/kg.

Document data

International classification (ICS): 71.080.30.

Chinese classification (CCS): G15.

Estimated length of the Chinese original: 6,631 words.

Supersedes the earlier edition SH 1498-1992.
