What this standard covers

This standard specifies the solution of polymer molecular weight (polystyrene representation) and its molecular weight distribution method. This standard applies to be completely dissolved in tetrahydrofuran (THF), the molecular weight range of $5 \times 10^3 \sim 1 \times 10^6$ solution polymers.

Document data

International classification (ICS): 83.060.

Chinese classification (CCS): E35.

Estimated length of the Chinese original: 19,137 words.

Adopted international standard: ISO 11344-2004, IDT.
