What this standard covers

This standard specifies the use of capillary column gas chromatography direct injection method for the determination of liquid synthetic rubber latex residual monomers and other organic components approach.

Document data

International classification (ICS): 83.060.

Chinese classification (CCS): G34.

Estimated length of the Chinese original: 8,874 words.

Adopted international standard: ISO 13741-1-1998, MOD.
