What this standard covers

This standard specifies the requirements for the materials, design, structure, manufacture, inspection, acceptance, surface treatment, transportation and packaging of petrochemical steel pressure vessels. The scope of application of this standard is the same as that of the steel pressure vessel in GB150.1 "Pressure Vessel".

Document data

International classification (ICS): 78.180.

Chinese classification (CCS): P72.

Estimated length of the Chinese original: 56,525 words.

Supersedes the earlier edition SH/T 3074-2007.
