What this standard covers

This standard specifies the petrochemical industry, light load pump and its drive mechanism, the auxiliary equipment in the design, manufacture, inspection and testing and other requirements. This standard applies to petroleum chemical industry, light duty centrifugal pump engineering design and equipment procurement. Beyond, the light load range of parameters of a centrifugal pump can also be implemented by reference. This standard does not apply to non-sealed pumps.

Document data

International classification (ICS): 23.080.

Chinese classification (CCS): P72.

Estimated length of the Chinese original: 28,274 words.

Supersedes the earlier edition SH/T 3140-2004.
