What this standard covers

This standard specifies the requirements for the PROFIBUS Control System (PFCS) engineering design. This standard applies to the engineering design of the PROFIBUS control system in the new construction, expansion and reconstruction of petroleum refining, petrochemical, and coal-based raw materials for fuel and chemical products.

Document data

International classification (ICS): 25.040.

Chinese classification (CCS): P72.

Estimated length of the Chinese original: 44,439 words.
