What this standard covers

This standard specifies the technical requirements for the selection, inspection and acceptance of samplers for steel vertical storage tanks. This standard is applicable to the selection, inspection and acceptance of samplers for steel vertical storage tanks in the new, reconstructed and expanded projects of petrochemicals, coal chemical industry, or petroleum depots. It is not suitable for the selection, inspection and acceptance of sampler for cryogenic atmospheric pressure tanks.

Document data

International classification (ICS): 23.020.

Chinese classification (CCS): P72.

Estimated length of the Chinese original: 19,197 words.

Supersedes the earlier edition SH/T 3414-1999.
