What this standard covers

This standard specifies the minimum general technical requirements for the design, materials, manufacturing, inspection and testing, packaging and transportation, and documentation of air preheaters for petrochemical tubular furnaces. This standard applies to partition-type air preheaters, regenerative air preheaters, and heat medium air preheaters for petrochemical tubular furnaces.

Document data

Chinese classification (CCS): P72.

Estimated length of the Chinese original: 20,219 words.
