What this standard covers

This standard specifies the tube furnace petrochemical materials used for 25Cr-20Ni (HK40) and above the level of high-alloy casting furnace tube and pipe fittings of materials, manufacturing, testing, labeling, packaging, transportation and storage requirements. This standard applies to petrochemical tubular furnace alloy content in 18Cr-10Ni-Nb alloy content and a higher level of centrifugally cast alloy furnace tubes and static casting alloy pipe fittings.

Document data

International classification (ICS): 25.180.

Chinese classification (CCS): P72.

Estimated length of the Chinese original: 28,218 words.
