What this standard covers

This standard specifies the construction process and technical requirements for the lifting of large petrochemical equipment. This standard is applicable to the construction of large-scale equipment hoisting for petrochemical enterprises and the new construction, reconstruction, and expansion projects for the construction of fuels and chemical products from coal as raw materials.

Document data

International classification (ICS): 91.200.

Chinese classification (CCS): P72.

Estimated length of the Chinese original: 92,968 words.

Supersedes the earlier edition SH/T 3515-2003.
