What this standard covers

This standard specifies the technical requirements and quality standards for the installation project of petrochemical reciprocating compressor units. This standard applies to the construction and acceptance of D-type, M-type, H-type and other horizontal reciprocating compressor units. This standard does not apply to portable air compressors, compressors driven by internal combustion engines or reciprocating steam engines, and small high-speed compressors for oil fields.

Document data

Chinese classification (CCS): P72.
