What this standard covers

This standard applies to the metal foil for electrodes impregnated paper as the medium of fixed capacitors. Such capacitors used in electronic equipment than 10V DC, pulse circuits (for no sense of structure allows the use of lower voltage capacitor unrestricted). Which share Kou Department DC voltage

Document data

International classification (ICS): 31.060.30.

Chinese classification (CCS): L11.

Estimated length of the Chinese original: 20,216 words.
