What this standard covers

This standard specifies the lithium niobate integrated optical waveguide modulator testing methods. This standard applies to lithium niobate integrated optical waveguide modulator (hereinafter referred to as "modulator") of the optical parametric test. Other materials integrated optical waveguide modulator can also be implemented by reference.

Document data

International classification (ICS): 31.260.

Chinese classification (CCS): L50.

Estimated length of the Chinese original: 18,143 words.
