What this standard covers

This standard specifies the surface mount IC test sockets general requirements, quality assurance requirements and test methods. This standard applies to the printed circuit board or backplane mounting surface mount IC test sockets (hereinafter referred to as sockets). In addition, the specification also applies to flat package IC test socket (see 6. 1).

Document data

International classification (ICS): 29.120.30.

Chinese classification (CCS): L23.
