What this standard covers

This standard applies to the use of the frequency of 45 ~ 62Hz AC circuit work, rated voltage of 250V, rated current of RWH1 IOA type temperature fuse. RWH1 type temperature fuse can be used in household appliances, instruments, and a variety of electrical devices. When the device fails when abnormal heat, it can automatically cut off power to prevent fires, destroying other accidents.

Document data

Chinese classification (CCS): K31.

Estimated length of the Chinese original: 8,853 words.
