1 Foreword

SJ/T 11231-2001 was issued by Ministry of Industry and Information Technology on 13 April 2001 and has been in force since 1 May 2001.

The SJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 12 pages in English translation.

2 Scope Preview

This standard specifies the following: a) an IC card module with contacts physical characteristics, including the module material, structure, characteristics, b) IC cards with contacts on the module contact each one the size, location and distribution, c) the supply

voltage, the DC parameters of the test signal structure and the basic requirements, including the signal rate, level voltage, current value, and parity conventions, rules, and the transport mechanism, but does not include the information and contents of the command.

SJ/T 11231-2001 falls under ICS 35.240.15, in the field of information technology.

This catalogue holds 116 other SJ/T standards in that field.

In this catalogue, SJ/T standards carry edition years from 1980 to 2026.

3 About this standard

Sector: Electronics Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 12 pages (approximate)

Chinese original: about 18,141 characters
