1 Foreword

SJ/T 11460.3.3-2016 was issued by Ministry of Industry and Information Technology on 5 April 2016 and has been in force since 1 June 2021.

It is one of 14 parts of the SJ/T 11460 series.

The SJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the definition, technical requirements, inspection methods, inspection rules, and requirements for marking, packaging, transportation, and storage of direct-lit LED backlight components for television receivers. It is suitable for direct-type

backlight components that use LED as the light source and are used in television receivers.

SJ/T 11460.3.3-2016 is filed under Chinese Standard Classification L47, in the field of electronic components and information technology.

This catalogue holds 1,078 other SJ/T standards without an ICS number.

In this catalogue, SJ/T standards carry edition years from 1980 to 2026.
