What this standard covers

This Standard specifies the term aluminum-doped zinc oxide type transparent conductive oxide glass, definitions, materials, technical requirements, test methods, inspection rules, packaging, labeling, storage and transportation. This Standard applies to silicon-based thin-film solar cell with aluminum-doped zinc oxide type transparent conductive oxide glass. Other thin-film solar cell technology may refer to this standard.

Document data

International classification (ICS): 31.03.

Chinese classification (CCS): L90.

Estimated length of the Chinese original: 20,242 words.
