What this standard covers

This Standard specifies the low-power semiconductor light-emitting diode chips (hereinafter referred to as chip) technical requirements, test methods, inspection rules and signs, packaging, transportation and storage. This Standard applies to chip visible, ultraviolet and infrared emitting diode chip emitting diode chip implementation.

Document data

International classification (ICS): 31.08.

Chinese classification (CCS): L53.

Estimated length of the Chinese original: 2,020 words.
