What this standard covers

This Standard specifies the silicon interstitial oxygen conversion factor guide. This Standard applies to testing at room temperature for more than $0.1^{\circ}\text{C} \cdot \text{cm}$ resistivity n-type silicon single crystal and resistivity greater than $0.5 \cdot \text{cm}$ p-type silicon single crystal interstitial oxygen.

Document data

International classification (ICS): 29.045.

Chinese classification (CCS): H82.

Estimated length of the Chinese original: 8,815 words.
