What this standard covers

According to the characteristics of the chemical industry, this standard proposes to conform to the MES functional architecture model of the chemical industry, and defines the application functions, system interfaces, and system environment requirements of the MES in the chemical industry. This standard applies to single channel rates of 2.5 Gbit/s, 10 Gbit/s, and 40 Gbit/s. And 100Gbit/s open optical wavelength division multiplexing (WDM) system, integrated optical wavelength division multiplexing (WDM) system can also refer to implementation.

Document data

Chinese classification (CCS): L67.

Estimated length of the Chinese original: 32,346 words.
