1 Foreword

SJ/T 11925.10-2024 was issued by Ministry of Industry and Information Technology on 24 October 2024 and has been in force since 1 February 2025.

It is one of 14 parts of the SJ/T 11925 series.

The SJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies general management requirements such as typical requirements for engineering vehicles to go to the cloud, reference architecture for going to the cloud, and steps for going to the cloud. This standard is applicable to domestic engineering vehicle

manufacturers and industry users to effectively organize and carry out engineering vehicle cloud work, carry out status monitoring, fault warning, remote operation and maintenance, etc. It is also applicable to provide consulting and training for industrial Internet platform service providers, scientific research institutes and other entities to implement engineering vehicles on the cloud.

SJ/T 11925.10-2024 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 1,655 other SJ/T standards.

Of the 576 SJ/T standards that do carry an ICS number, 222 (39%) fall under ICS 31, in the field of electronics.
