What this standard covers

This standard specifies the design finalization and type testing requirements for portable photovoltaic modules. This document applies to portable photovoltaic modules for outdoor use. This document does not apply to energy storage batteries, charge controllers, inverters, etc., in portable photovoltaic systems. For modules integrating energy storage batteries, charge controllers, and inverters, the corresponding devices need to be removed before testing the photovoltaic module portion.

Document data

International classification (ICS): 29.045.

Chinese classification (CCS): H82.

Estimated length of the Chinese original: 19,199 words.
