What this standard covers

This standard specifies the external dimensions of ground-mounted crystalline silicon photovoltaic (PV) modules, as well as the locations and sizes of mounting holes for framed modules. It applies to single-glass and double-glass PV modules that use cells with side lengths of 166mm ?? 0.25mm, 182mm ?? 0.25mm, or 210mm ?? 0.25mm, and that comply with the specifications for Pollution Degree 1 or 2 and Material Group I as defined in IEC 61730-1:2016; other cell and module types not listed here may refer to the contents of this standard.

Document data

International classification (ICS): 31.260.

Chinese classification (CCS): K83.

Estimated length of the Chinese original: 10,132 words.
