What this standard covers

This standard specifies the general technical requirements, test methods, quality inspection rules, packaging and transportation of lithium battery cell short-circuit testers. This standard is applicable to the development, design, production, acceptance and inspection of lithium battery cell short-circuit testers with an output holding voltage not higher than 2 kV.

Document data

International classification (ICS): 17.220.

Chinese classification (CCS): L86.

Estimated length of the Chinese original: 19,148 words.
