### What this standard covers

This standard specifies the technical requirements for electroacoustic testers, describes the corresponding test methods, and also specifies inspection rules, marking, packaging, transportation and storage requirements. This standard is applicable to the manufacture of electroacoustic testers for measuring the electroacoustic characteristics of headphones, microphones, speakers, telephone headsets, speakers and other electroacoustic devices or products.

### Document data

International classification (ICS): 17.140.50.

Chinese classification (CCS): A59.

Estimated length of the Chinese original: 22,260 words.
