What this standard covers

This standard specifies the main series of gyromagnetic polycrystalline ferrite materials for microwave frequency applications. This standard is suitable for gyromagnetic polycrystalline ferrite materials for microwave ferrite devices. This standard is not suitable for spin-on polycrystalline ferrite film materials. This standard does not replace the standard for gyromagnetic products.

Document data

Chinese classification (CCS): L19.

Estimated length of the Chinese original: 7,776 words.

Supersedes the earlier edition SJ 2268-1983.
