1 Foreword

SL 270-2001 was issued by Ministry of Water Resources of the People's Republic of China on 2 August 2001 and has been in force since 1 December 2001.

The SL prefix, without a suffix, marks a mandatory standard: within its scope, compliance is required.

The document runs to 11 pages in English translation.

2 Scope Preview

This standard specifies: Multi- sediment samples collected river water environment and pretreatment techniques and methods, This standard applies to: Multi river water and sediment environmental samples collection and pretreatment, does not apply to domestic sewage, industrial wastewater containing suspended solids water in environmental samples collection and pretreatment, this standard must be used with the corresponding environmental quality standards and evaluation methods to match.

SL 270-2001 falls under ICS 27.140; 93.160, in the field of energy and heat transfer engineering.

This catalogue holds 100 other SL standards in that field.

In this catalogue, SL standards carry edition years from 1989 to 2020.
