What this standard covers

This standard stipulates the test content, procedures and requirements for the start-up trial run of small and medium-sized hydro-generating units ranging from 1 to 25MW (excluding 25MW) in stand-alone capacity. This standard is applicable to the start-up and trial operation of small and medium-sized hydroelectric generating sets and related electromechanical equipment. Reference can be made to the unit with a unit capacity of less than 1 MW. The start-up test run test of the bulb tubular hydrogenerator set was carried out in accordance with DL/T 827 "Test plan for start-up of bulb-type turbine-generator set".

Document data

International classification (ICS): 27.140.

Chinese classification (CCS): K55.

Estimated length of the Chinese original: 20,293 words.
