1 Foreword

SL/T 1-2024 was issued by Ministry of Water Resources of the People's Republic of China on 24 May 2024 and has been in force since 24 August 2024.

It replaces the earlier edition SL 1-2014.

The SL/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard applies to the preparation of water conservancy technical standards for engineering construction such as general, survey, planning, design, construction and installation, supervision, acceptance, operation and maintenance, quality and evaluation, safety and supervision, monitoring and forecasting, materials and instruments and equipment, testing and inspection and testing of water conservancy and hydropower projects.

SL/T 1-2024 falls under ICS 93.160, in the field of civil engineering.

This catalogue holds 10 other SL/T standards in that field.

In this catalogue, SL/T standards carry edition years from 1994 to 2026.

3 About this standard

Issued by: Ministry of Water Resources of the People's Republic of China

English translation: about 75 pages

Chinese original: about 114,193 characters

Supersedes the earlier edition SL 1-2014.

4 Related standards

Standards on related subjects:

GB 50788-2012 - Technical code for water supply and sewerage of urban

SL 314-2004 - Design specification for roller compacted concrete dams

SL 282-2003 - Design specification for concrete arch dams

SL 52-2015 - Specification for construction survey of water and hydropower projects

SL 49-2015 - Specification of construction for concreteface rockfill dams

5 Classification and status

International classification (ICS): 93.160

Chinese Standard Classification (CCS): P 55

Prefix SL/T: recommended standard.
