1 Foreword

SL/T 247-2020 was issued by Ministry of Water Resources of the People's Republic of China on 4 November 2020 and has been in force since 1 February 2021.

It replaces the earlier edition SL 247-2012.

The SL/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the compilation content, compilation methods and technical requirements of hydrological data, as well as related technical measures to ensure the quality of hydrological data compilation results; it has formulated the compilation requirements for hydrological data compilation charts and compilation instruction tables. This standard is applicable to the compilation, review and review of hydrological data of national basic hydrological surveying stations, and other hydrological surveying stations can
