1 Foreword

SL/T 269-2019 was issued by Ministry of Water Resources of the People's Republic of China on 30 September 2019 and has been in force since 30 December 2019.

It replaces the earlier edition SL 269-2001.

The SL/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

SL/T 269-2019 is filed under Chinese Standard Classification P 59, in the field of engineering construction.

This catalogue holds 155 other SL/T standards without an ICS number.

In this catalogue, SL/T standards carry edition years from 1994 to 2026.

3 About this standard

Issued by: Ministry of Water Resources of the People's Republic of China

English translation: about 63 pages

Chinese original: about 95,933 characters

Supersedes the earlier edition SL 269-2001.

4 Related standards

Standards on related subjects:

NB 35047-2015 - Code for seismic design of hydraulic structures of hydropower projects

SL 314-2004 - Design specification for roller compacted concrete dams

SL 282-2003 - Design specification for concrete arch dams

SL 274-2020 - Design code for rolled earth-rock fill dams

SL 279-2016 - Specification for design of hydraulic tunnel

SL 266-2014 - Design code for hydropower house

5 Classification and status

Chinese Standard Classification (CCS): P 59

Prefix SL/T: recommended standard.
