## 1 Foreword

SL/T 318-2020 was issued by Ministry of Water Resources of the People's Republic of China on 15 December 2020 and has been in force since 15 March 2021.

It replaces the earlier edition SL 318-2011.

The SL/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

## 2 Scope Preview

This standard is applicable to water conservancy schistosomiasis control planning in endemic areas of schistosomiasis and the design, construction and operation management of various newly built, expanded, rebuilt and reinforced water conservancy schistosomiasis control projects. Other wading projects in schistosomiasis endemic areas that have an impact on the spread of schistosomiasis and water conservancy and schistosomiasis control measures in non-endemic areas adjacent to endemic areas can be implemented by

reference. Water conservancy schistosomiasis control is mainly based on the overall consideration of various factors, through water conservancy measures and anti-snail facilities, blocking the spread of oncomelania, and treating the environment where the snails grow in order to achieve the purpose of preventing and eliminating snails.

SL/T 318-2020 falls under ICS 13.100, in the field of environment and health protection, safety.

This catalogue holds 14 other SL/T standards in that field.

In this catalogue, SL/T standards carry edition years from 1994 to 2026.

## 3 About this standard

Issued by: Ministry of Water Resources of the People's Republic of China

English translation: about 34 pages

Chinese original: about 51,513 characters

Supersedes the earlier edition SL 318-2011.

## 4 Related standards

Standards on related subjects:

GB/T 26368-2020 - Hygienic requirements for iodine disinfectants

GB/T 26367-2020 - Hygienic requirements for biguanides disinfectants

GB/T 20468-2006 - General for internal quality control for quantitative measurements in clinical laboratory

## 5 Classification and status

International classification (ICS): 13.100

Chinese Standard Classification (CCS): C 50

Prefix SL/T: recommended standard.
