1 Foreword

SL/T 335-2024 was issued by Ministry of Water Resources of the People's Republic of China on 24 August 2024 and has been in force since 24 November 2024.

It replaces the earlier edition SL 335-2014.

The SL/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard applies to the preparation and revision of comprehensive soil and water conservation plans and special soil and water conservation plans. The preparation of soil and water conservation chapters in soil and water conservation projects or project implementation plans and other related industry plans can be referred to for implementation.
