1 Foreword

SL/T 34-2023 was issued by Ministry of Water Resources of the People's Republic of China on 24 October 2023 and has been in force since 24 January 2024.

It replaces the earlier edition SL 34-2013.

The SL/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the technical requirements for the planning, layout and adjustment of various hydrological station networks. This standard applies to the planning, layout and adjustment of rivers, lakes, reservoirs, artificial canals and their basins (including underground water bodies) and coastal hydrological station networks.

SL/T 34-2023 falls under ICS 35.040, in the field of information technology.

This catalogue holds 9 other SL/T standards in that field.

In this catalogue, SL/T standards carry edition years from 1994 to 2026.

3 About this standard

Issued by: Ministry of Water Resources of the People's Republic of China

English translation: about 22 pages

Chinese original: about 33,343 characters

Supersedes the earlier edition SL 34-2013.

4 Related standards

Standards on related subjects:

GB/T 920-2023 - Code for highway pavement classification and type

GB/T 13861-2022 - Classification and code for the hazardous and harmful factors in process

GB/T 12905-2019 - Bar code terminology

SL 700-2015 - Structures and identifiers of database for construction and management of water projects

SL 591-2014 - Structure and identifiers for database of historical large floods

5 Classification and status

International classification (ICS): 35.040

Chinese Standard Classification (CCS): A 24

Prefix SL/T: recommended standard.
