1 Foreword

SL/T 352-2020 was issued by Ministry of Water Resources of the People's Republic of China on 30 November 2020 and has been in force since 28 February 2021.

It replaces the earlier edition SL 352-2006.

The SL/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard applies to the indoor tests of hydraulic concrete aggregates, mixtures, concrete, full-graded concrete, roller compacted concrete, hydraulic mortar and concrete water, as well as on-site concrete quality testing. In addition to the requirements of this standard, the hydraulic concrete test should also meet the requirements of the current relevant national standards.

SL/T 352-2020 falls under ICS 93.160, in the field of civil engineering.

This catalogue holds 10 other SL/T standards in that field.

In this catalogue, SL/T standards carry edition years from 1994 to 2026.

3 About this standard

Issued by: Ministry of Water Resources of the People's Republic of China

English translation: about 287 pages

Chinese original: about 434,498 characters

Supersedes the earlier edition SL 352-2006.

4 Related standards

Standards on related subjects:

GB 50788-2012 - Technical code for water supply and sewerage of urban

SL 314-2004 - Design specification for roller compacted concrete dams

SL 282-2003 - Design specification for concrete arch dams

SL/T 631.2-2025 - Acceptance standards for construction quality of unit projects of water conservancy and hydropower projects - Part 2: Concrete engineering (with clause explanation)

SL/T 631.1-2025 - Construction Quality Acceptance Standards for Unit Projects of Water Conservancy and Hydropower Engineering - Part 1: Earthwork Engineering

SL/Z 349-2015 - Technical guidelines for construction of monitoring and management system of water resources

5 Classification and status

International classification (ICS): 93.160

Chinese Standard Classification (CCS): P 55

Prefix SL/T: recommended standard.
