1 Foreword

SL/T 460-2020 was issued by Ministry of Water Resources of the People's Republic of China on 2 November 2020 and has been in force since 2 February 2021.

It replaces the earlier edition SL 460-2009.

The SL/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies the content, methods and technical requirements for the compilation and printing of hydrological yearbooks. This standard is applicable to the compilation and printing of the hydrological yearbook data of the national basic hydrological surveying stations, and other hydrological surveying stations can be implemented by reference. The compilation and publication of station data such as groundwater, moisture, and water quality can be implemented by reference.

SL/T 460-2020 falls under ICS 17.120, in the field of metrology and measurement.

This catalogue holds 1 other SL/T standards in that field.

In this catalogue, SL/T standards carry edition years from 1994 to 2026.

3 About this standard

Issued by: Ministry of Water Resources of the People's Republic of China

English translation: about 94 pages

Chinese original: about 142,128 characters

Supersedes the earlier edition SL 460-2009.

4 Related standards

Standards on related subjects:

GB 55018-2021 - General code for engineering survey

SL/T 276-2022 - Hydrological infrastructure construction and technical equipment standards

SL/T 278-2020 - Specification for hydrologic computation of water resources and hydropower projects

SL/T 247-2020 - Code for hydrologic data processing

5 Classification and status

International classification (ICS): 17.120

Chinese Standard Classification (CCS): P 12

Prefix SL/T: recommended standard.
