1 Foreword

SL/T 525.5-2021 was issued by Ministry of Water Resources of the People's Republic of China on 18 November 2021 and has been in force since 18 February 2022.

It is one of 7 parts of the SL/T 525 series.

The SL/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

SL/T 525.5-2021 is filed under Chinese Standard Classification P 59, in the field of engineering construction.

This catalogue holds 155 other SL/T standards without an ICS number.

In this catalogue, SL/T standards carry edition years from 1994 to 2026.

3 About this standard

Issued by: Ministry of Water Resources of the People's Republic of China

English translation: about 49 pages

Chinese original: about 73,743 characters

4 Related standards

Other parts of this standard:

SL/T 525.1-2023 - Guide for water-draw and utilization assessment on construction projects - Part 1: Water resources and hydropower construction projects

SL/T 525.6-2021 - Guidelines for Water Resources Demonstration for Construction Projects - Part 6: Paper Industry Construction Projects

SL/T 525.8-2024 - Guidelines for water draw and utilization assessment on construction projects - Part 8: Steel industry construction projects

SL/T 525.9-2024 - Guidelines for water draw and utilization assessment on construction projects Part 9: Textile industry construction projects

SL/T 525.10-2025 - Guidelines for water resource demonstration for construction projects Part 10: Construction projects in the non-ferrous metals industry

SL/T 525.12-2024 - Guide for water-draw and utilization assessmenton construction projects Part 12: Water-source heat pump construction projects

Standards on related subjects:

NB 35047-2015 - Code for seismic design of hydraulic structures of hydropower projects

SL 314-2004 - Design specification for roller compacted concrete dams

SL 282-2003 - Design specification for concrete arch dams

5 Classification and status

Chinese Standard Classification (CCS): P 59

Prefix SL/T: recommended standard.
