1 Foreword

SL/T 752-2024 was issued by Ministry of Water Resources of the People's Republic of China on 6 May 2024 and has been in force since 6 August 2024.

It replaces the earlier edition SL/T 752-2020.

2 Scope

This standard specifies the basic conditions, evaluation contents and evaluation methods for the evaluation of green small hydropower. This standard applies to built small hydropower stations with a total installed capacity of 50 MW and below, except pumped storage power stations and tidal power stations.

3 About this standard

Issued by: Ministry of Water Resources of the People's Republic of China

English translation: about 17 pages

Chinese original: about 26,276 characters

Supersedes the earlier edition SL/T 752-2020.

4 Classification and status

International classification (ICS): 27.140

Chinese Standard Classification (CCS): P 59

Prefix SL/T: recommended standard.
