1 Foreword

SL/T 803-2020 was issued by Ministry of Water Resources of the People's Republic of China on 30 November 2020 and has been in force since 28 February 2021.

The SL/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 27 pages in English translation.

2 Scope Preview

This standard specifies the overall requirements for water conservancy network security protection, security technical system framework, security in-depth defense capability building requirements, security monitoring and early warning capability building requirements, security emergency response capability building requirements, safe operation requirements, and safety supervision and inspection requirements. This standard is applicable to the network security protection of water conservancy network security
