1 Foreword

SL/T 804-2020 was issued by Ministry of Water Resources of the People's Republic of China on 30 November 2020 and has been in force since 28 February 2021.

It replaces the earlier edition SL 302-2004; SL 289-2003.

The SL/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard applies to the construction and management of warping dams in the Loess Plateau. The construction and management of silt dams shall not only comply with the provisions of this standard, but also comply with the provisions of relevant national standards.

SL/T 804-2020 falls under ICS 93.160, in the field of civil engineering.

This catalogue holds 10 other SL/T standards in that field.

In this catalogue, SL/T standards carry edition years from 1994 to 2026.

3 About this standard

Issued by: Ministry of Water Resources of the People's Republic of China

English translation: about 89 pages

Chinese original: about 135,132 characters

Supersedes the earlier edition SL 302-2004; SL 289-2003.

4 Related standards

Standards on related subjects:

NB 35047-2015 - Code for seismic design of hydraulic structures of hydropower projects

SL 314-2004 - Design specification for roller compacted concrete dams

SL 282-2003 - Design specification for concrete arch dams

SL/T 834-2024 - Rules for the preparation of water conservation evaluation for water conservancy construction projects

SL/T 719-2024 - Guidelines for the preparation of water project construction planning consent and demonstration report

SL/T 823-2024 - Standard for repair and maintenance of check dams

5 Classification and status

International classification (ICS): 93.160

Chinese Standard Classification (CCS): P 57

Prefix SL/T: recommended standard.
